

# POOL FILLING FAQs - SUMMER 2022

CITY OF KEENE - PUBLIC WORKS DEPARTMENT (603) 352-6550

Your first step is to determine how much water your pool will need. Not sure how much water your pool takes to fill? Visit: <https://bit.ly/2L6FbRi> for a pool filling calculator

## WATER/SEWER RATES

Charge for Water/Sewer is  
**\$11.35** per hundred cubic  
foot (HCF=750 gallons of  
water)

Charge for water NOT  
discharged into sewer  
system (bulk water) is  
**\$5.06** per HCF

Service charge for City  
personnel to remove meter,  
install spacer and later  
return to reinstall meter is a  
total charge of **\$90**.

## SHOULD YOU REQUEST TO HAVE YOUR METER PULLED?

*Either way you'll pay for the water – but it may prove to be less expensive to pay the water/sewer charges rather than to incur the service charges to remove and re-install your meter.*

### IF YOUR POOL NEEDS...

**Less than 10,735 gallons**, it will be less expensive to use your water through your meter and pay water/sewer charges.

**More than 10,735 gallons**, it will be less expensive for you to contact the City to have your meter temporarily removed and a spacer installed. No sewer charge is applied. Please call 603-352-3239 to schedule an appointment to have your water meter temporarily removed and a spacer installed.

### SAFE DISPOSAL OF POOL CHEMICALS

#### Household Hazardous Waste Collection:

7/16/22	8/10/22	9/24/22
7/20/22	8/20/22	10/8/22
7/30/22	9/10/22	10/19/22
8/6/22	9/14/22	10/29/22

Questions about HHW? (603) 352-5739

55 Old Summit Road  
8:00 AM - 1:00 PM  
on collection days

When emptying your pool water for the season **DO NOT** to feed water into any nearby storm drains/catch basins as remaining chemicals can **contaminate** local water.

Instead, empty pool water onto your lawn and let it seep into the ground. (chemicals will be diluted enough to be safe.)

*Thank you for your compliance with this matter.*

**REMEMBER!**
