## CITY OF KEENE NEW HAMPSHIRE

Meeting Date: January 25, 2023

**To:** Municipal Services, Facilities and Infrastructure Committee

From: Kurt Blomquist, ACM/Public Works Director

**Through:** Elizabeth Dragon, City Manager

Subject: Staff Response to No Parking Request - 191 Washington Street -

**Delineation of Parallel Parking Stalls on Public Streets** 

#### Recommendation:

Move that the Municipal Services, Facilities and Infrastructure Committee recommend that the presented guide from the Public Works Department for the delineation of parallel parking stalls on public streets be accepted.

#### **Attachments:**

None

#### Background:

A request was received from Juliana Bergeron for a "No Parking" designation in the area of 191 Washington Street due to expressed concerns about visibility issues for vehicles exiting the driveway when vehicles are parked on the street.

During the discussion, it was identified that if the parking was more organized and spaces were delineated, that would assist in addressing concerns about where vehicles park. The request was placed on more time for the development of guidelines for when parallel parking stalls would be delineated.

Public Works, Parking Services and Community Development staff reviewed various areas in the City where parallel parking occurs but is not delineated. The staff concluded that not all streets needed to have parallel stalls delineated and there were certain conditions that warranted a review. Public Works is recommending guidelines be used when considering whether delineating parallel parking stalls is appropriate. Guidelines include:

- Streets with a high volume of traffic, 4,000 Annual Average Daily Traffic (AADT) or greater,
- Areas where properties that access the street are predominately commercial, office, institutional, or mixed use that includes residential,
- Streets that have paved shoulder areas of at least eight (8) feet in width that are being used for parallel parking, and
- Documentation of issues relating to unorganized parking.

If it is determined that delineating parallel-parking stalls is appropriate, the City Engineer will review

the area and develop a layout. The layout of stalls will be based on the following guidelines:

- Parallel parking stalls and markings in general will be in conformance with the latest edition of the Manual of Uniform Traffic Control Devices (MUTC) and have the following dimensions:
  - o Stalls shall not be less than eight (8) feet wide and no wider than ten (10) feet, and
  - o Length shall not be less than twenty (20) feet and no longer than twenty (22) feet.
- The City Engineer on a case-by-case basis may approve an exception to the twenty (20) feet length.

These guidelines will be issued in accordance with Chapter 100, City of Keene, NH Land Development Code (LDC), Article 22. Public Infrastructure Stands, Section 22.1.2.

These guidelines have been applied to Washington Street and Court Street. Based on the guidelines, delineated parallel parking stalls will be installed as follows:

#### Washington Street

- East Side, from Tyler Street to Greenlawn Street (excluding designated existing "No Parking" zones in front of Franklin School)
- West Side, from 118 Washington Street (across from Beaver Street) to High Street

#### **Court Street**

- East Side, Mechanic Street to Union Street
- West Side. Summer Street to 9 Court Street.

It is estimated that approximately 110 stalls will be delineated at an annual cost of approximately \$2,200.

January 16, 2023

City of Keene Clerk's Office 3 Washington St Keene, NH 03431

To the Honorable Mayor and City Council,

As I have heard from many of my constituents, and have witnessed myself, there has been a major increase in littering in the area in and around Woodland Cemetery.

North Lincoln Street, famous for its salamander crossing, is particularly affected by the regular dumping of beer cans, many of which appear to have been thrown from passing automobiles. Other back roads on the East Side, including Old Concord Road, are also experiencing this problem. Of particular concern is the impact on the wetlands along Beaver Brook that drain the area.

I ask that this topic be brought up for discussion at a Council Committee meeting.

Sincerely,

**Bobby Williams** 

City Councilor, Ward 2

## CITY OF KEENE NEW HAMPSHIRE

Meeting Date: January 25, 2023

**To:** Municipal Services, Facilities and Infrastructure Committee

From: Andrew Bohannon, Parks, Recreation and Facilities Director

**Through:** Elizabeth Dragon, City Manager

Subject: Chapter 58 - Parks, Recreation and City Unimproved Land - Parks,

**Recreation and Facilities Director** 

#### Recommendation:

Move that the City Attorney be instructed to introduce an Ordinance for first reading that would amend Chapter 58, as discussed by the Committee.

1. Chapter 58 Revisions TPM 01.23.23 (003)

#### **Background:**

The City Code Chapter 58 Parks, Recreation and Public Facilities was last revised in 2003 as it related to specific uses of individual parks. As a result of this review, staff created clarifying language regarding the roles and responsibilities outlined within the ordinance specifically for the Parks and City Unimproved Land. The new version of Chapter 58 provided staff the opportunity to revoke and replace specific outdated language.

Specifically, the highlighted changes will be reflected within the new ordinance:

- A clarifying list of City Parks.
- The creation of rules within the parks and the proper notification process.
- An updated list of Prohibited Uses within City Parks
- A consistent set of defined time for use in all City Parks
- New language to reflect maintenance or inspection type work by third parties.

Additionally, language specific to various watershed areas was changed for the purposes of the creation of Article IV – City Unimproved Land. This Article provides a clear delineation towards oversight of these areas by the Public Works Department and encompasses similar updates found in Article II – City Park Regulations.
