

August 31, 2023

Dear Voters,

It has been my honor to represent Ward 2 for the past four years on the Keene City Council, and I hope that you will see fit to elect me again.

I am proud of the work I have become known for as a Councilor. I've advocated for better sidewalks and bicycle infrastructure, for housing affordability, for environmental protection, and for efficient, effective, accessible, and inclusive city services.

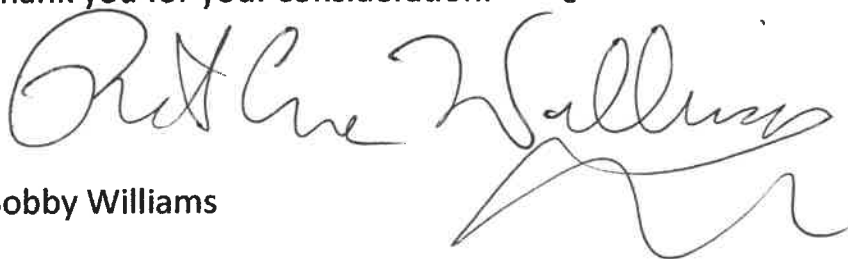

As a Councilor, I introduced a new city ordinance that loosens the restrictions on building Accessory Dwelling Units (aka mother-in-law suites) in residential areas. The ordinance was passed unanimously by the Council and should help to provide some new housing options to people affected by our city's ongoing housing shortage. I also fought to ensure that safe bicycle lanes will be included as part of the upcoming downtown infrastructure project, which will enable a greener and healthier future for transportation in Keene.

If re-elected as City Councilor, I will continue to work for the people of Keene, and especially for the people of Ward 2. In my next term, I plan to push for the re-establishment of a city street-tree program, to ensure that our neighborhoods stay green as our existing trees reach the end of their natural lives.

I will also continue my work to make sure that the City makes effective use of money that has become available as a result of lawsuits against the pharmaceutical industry for their role in creating the opioid overdose crisis. If prudently spent, that money can save lives in our community.

Please vote for me for Ward 2 Councilor in the elections this fall. The City of Keene is a special place, and I promise to do my best to serve you well.

Thank you for your consideration.
