

Biometric Screening Program Update

It's not too late for eligible HealthTrust medically covered individuals to have a Biometric Health Screening and earn a \$75 reward for the 2020 Program Year! The deadline to complete a 2020 Biometric Health Screening is Monday, November 30, 2020. Participants currently have two options for completing a Biometric Health Screening from now until November 30th.

- **They can have a screening at any ConvenientMD location in New Hampshire, Maine or Massachusetts** – Participants can visit the HealthTrust website and print a [ConvenientMD 2020 Biometric Health Screening Authorization Form](#) and bring the form with them to any ConvenientMD location in New Hampshire. All locations are open seven days a week, 8:00 a.m. to 8:00 p.m. No appointment needed! Screening results will be sent automatically and securely to Onlife Health.
- **They can have a screening at their own PCP's office.*** – Participants can complete a [2020 Biometric Health Screening Form PCP](#) (also available on the HealthTrust website) with their primary care provider at their next check-up and follow the directions on the form to submit it.

Unfortunately, COVID-19 abruptly stopped the Regional Biometric Screening Program earlier this year in March and many participants may not have had the opportunity to have a screening. There is still time to have a screening and learn their important health numbers and earn a \$75 reward.

We hope to begin the Regional Biometric Screening program again in 2021; stay tuned for details!

**Enrollees with Medicomp Three coverage are not eligible to receive rewards for screenings with a PCP, but can qualify for a \$75 reward by having a Biometric Health Screening at a ConvenientMD location or at a HealthTrust Biometric Health Screening event.*
